

Product Name: Erastin Revision Date: 05/09/2023

Product Data Sheet

Erastin

Cat. No.: B1524

CAS No.: 571203-78-6

Formula: C30H31ClN4O4

M.Wt: 547.04

Synonyms:

Target:

Pathway:

Storage: Store at -20°C

The product is not stable in solution, please dissolve it immediately before use.

Solvent & Solubility

10.92mg/mL in DMSO with gentle warming

In Vitro

Preparing Stock Solutions	Solvent Concentration	1mg	5mg	10mg
	1 mM	1.8280 mL	9.1401 mL	18.2802 mL
	5 mM	0.3656 mL	1.8280 mL	3.6560 mL
-10	10 mM	0.1828 mL	0.9140 mL	1.8280 mL

Please refer to the solubility information to select the appropriate solvent.

Biological Activity

Shortsummary	cell-permeable ferroptosis activator and antitumor agent		
IC ₅₀ & Target			
In Vitro	Cell Viability Assay		
	Cell Line:	Engineered human tumour cells (BJ-TERT/LT/ST/RAS V12 cells), HT-1080	
	Epporeme	fibrosarcoma cell line	
	Preparation method:	The solubility of this compound in DMSO is >27.4mg/mL. General tips for	
		obtaining a higher concentration: Please warm the tube at 37 °C for 10 minutes	
		and/or shake it in the ultrasonic bath for a while. Stock solution can be stored	
		below -20°C for several months.	
	Reacting conditions:	10 μM, 24h,	

	Applications:	Erastin activates a rapid, oxidative, non-apoptotic cell death process. Erastin			
		exhibits greater lethality in human tumour cells harbouring mutations in the			
		oncogenes HRAS, KRAS or BRAF. Erastin treatment of cells harbouring			
		oncogenic RAS causes the appearance of oxidative species and subsequent			
		death through an oxidative, non-apoptotic mechanism. Treatment of NRAS			
	Diccoun Control	mutant HT-1080 fibrosarcoma cells with the RSL molecule erastin (10 μM)			
	Espace he un	resulted in a time-dependent increase in cytosolic and lipid ROS beginning			
Animal experiment		A Company of the Comp			
	Applications:				
In Vivo	Other notes:	Please test the solubility of all compounds indoor, and the actual solubility may			
		slightly differ with the theoretical value. This is caused by an experimental			
		system error and it is normal.

Caution

FOR RESEARCH PURPOSES ONLY.

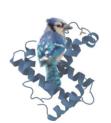

NOT FOR HUMAN, VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

Specific storage and handling information for each product is indicated on the product datasheet. Most APExBIO products are stable under the recommended conditions. Products are sometimes shipped at a temperature that differs from the recommended storage temperature. Shortterm storage of many products are stable in the short-term at temperatures that differ from that required for long-term storage. We ensure that the product is shipped under conditions that will maintain the quality of the reagents. Upon receipt of the product, follow the storage recommendations on the product data sheet.
