

Product Name: PF-3758309 Revision Date: 01/10/2021

Product Data Sheet

PF-3758309

Cat. No.:	A3716
CAS No.:	898044-15-0
Formula:	C25H30N8OS
M.Wt:	490.62
Synonyms:	PF 3758309; PF3758309
Target:	Cell Cycle/Checkpoint
Pathway:	PAK4
Storage:	Store at -20°C
	210

Solvent & Solubility

	\geq 24.53 mg/mL in DMSO; insoluble in H2O; \geq 101.4 mg/mL in EtOH with gentle warming and ultra				
In Vitro	Preparing	Mass Solvent Concentration	1mg	5mg	10mg
	Stock Solutions	1 mM	2.0382 mL	10.1912 mL	20.3824 mL
	PEBIO	5 mM	0.4076 mL	2.0382 mL	4.0765 mL
		10 mM	0.2038 mL	1.0191 mL	2.0382 mL

Please refer to the solubility information to select the appropriate solvent.

Biological Activity

Shortsummary	PAK4 inhibitor				
IC ₅₀ & Target	Ki=18.7 nM, Kd = 2.7 nM (PAK4)				
	Cell Viability Assay	a second s			
	Cell Line:	HEK293T, HCT116 and SKOV3 cells			
	Preparation method:	The solubility of this compound in DMSO is > 24.5 mg/mL. General tips for			
In Vitro		obtaining a higher concentration: Please warm the tube at 37 °C for 10 minutes			
		and/or shake it in the ultrasonic bath for a while. Stock solution can be stored			
		below - 20 °C for several months.			
	Reacting conditions:	1 μM; 72 hrs			
		1 www.apexbt.com			

	Applications:	In tested cell lines, PF-3758309 inhibited phosphorylation of the PAK4		
		substrate GEF-H1 and anchorage-independent cell growth. In addition,		
		PF-3758309 also inhibited accumulation of endogenous pGEF-H1 in HCT116		
		cells.		
	Animal experiment			
In Vivo	Animal models:	A panel of human xenograft tumor models		
	Dosage form:	7.5 ~ 30 mg/kg; p.o.; b.i.d., for 9 ~ 18 days		
	Applications:	PF-3758309 significantly inhibited tumor growth in 5 models including HCT116		
		and A549 models which were PAK4-dependent. On the other hand,		
		PF-3758309 showed no inhibition in DLD1 cells with a loss-of-function		
		mutation in one of the PAK4 alleles.		
	Other notes:	Please test the solubility of all compounds indoor, and the actual solubility n		
		slightly differ with the theoretical value. This is caused by an experimental		
		system error and it is normal.		
	Blo	3		
		DELand

Caution

FOR RESEARCH PURPOSES ONLY.

NOT FOR HUMAN, VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

Specific storage and handling information for each product is indicated on the product datasheet. Most APExBIO products are stable under the recommended conditions. Products are sometimes shipped at a temperature that differs from the recommended storage temperature. Shortterm storage of many products are stable in the short-term at temperatures that differ from that required for long-term storage. We ensure that the product is shipped under conditions that will maintain the quality of the reagents. Upon receipt of the product, follow the storage recommendations on the product data sheet.
