AZD1080

Cat. No.: B1536
CAS No.: 612487-72-6
Formula: C19H18N4O2
M.Wt: 334.37

Synonyms:
Target: PI3K/Akt/mTOR Signaling
Pathway: GSK-3
Storage: Store at -20°C

Solvent & Solubility

≥16.7mg/mL in DMSO

Biological Activity

Shortsummary
GSK3βInhibitor
IC50 & Target
6.9 nM (Ki) (GSK-3α), 31 nM (Ki) (GSK-3β)

Cell Viability Assay
Cell Line: 3T3 fibroblasts engineered to stably express 4-repeat human tau
Preparation method: Limited solubility. General tips for obtaining a higher concentration: Please warm the tube at 37 °C for 10 minutes and/or shake it in the ultrasonic bath for a while. Stock solution can be stored below -20°C for several months.
Reacting conditions: 37°C
Applications: AZD1080 inhibits phosphorylation of human tau protein in a concatenation-dependent manner (IC50 = 324 nM). The non-selective
reference GSK3 inhibitor LiCl (IC50 = 1.5 mM) indicating that AZD1080 is several orders of magnitude more potent than LiCl.

### Animal experiment

<tbody>
<tr>
<td>Dosage form:</td>
<td>AZD1080 (3 or 10 lmol/kg); oral gavage (6 mL/kg).</td>
</tr>
<tr>
<td>Applications:</td>
<td>6 h after administration of AZD1080, it inhibits the tau phosphorylation by maximal of 38±2% and 48±2% in hippocampus, indicating AZD1080 is effective at inhibiting tau phosphorylation at the P-Thr231 epitope, in a time- and dose-dependent manner in brain. In addition, AZD1080 reverses cognitive deficits in mice and rescues dysfunctional synapses.</td>
</tr>
<tr>
<td>Other notes:</td>
<td>Please test the solubility of all compounds indoor, and the actual solubility may slightly differ with the theoretical value. This is caused by an experimental system error and it is normal.</td>
</tr>
</tbody>
</table>

Specific storage and handling information for each product is indicated on the product datasheet. Most APExBIO products are stable under the recommended conditions. Products are sometimes shipped at a temperature that differs from the recommended storage temperature. Short-term storage of many products are stable in the short-term at temperatures that differ from that required for long-term storage. We ensure that the product is shipped under conditions that will maintain the quality of the reagents. Upon receipt of the product, follow the storage recommendations on the product data sheet.
