

Product Name: Meisoindigo Revision Date: 01/10/2021

Product Data Sheet

Meisoindigo

Cat. No.: B3255

CAS No.: 97207-47-1
Formula: C17H12N2O2

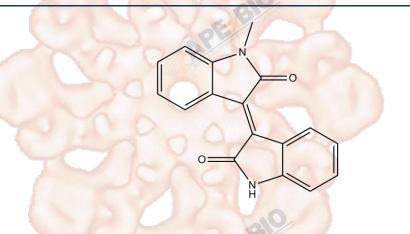

M.Wt: 276.29

Synonyms:

Target: Apoptosis

Pathway: Apoptosis Inducers

Storage: Store at -20°C

Solvent & Solubility

insoluble in H2O; insoluble in EtOH; \geqslant 25.85 mg/mL in DMSO with ultrasonic

In Vitro

| Preparing Stock Solutions | Solvent Concentration | 1mg | 5mg | 10mg |
|---------------------------|-----------------------|-----------|------------|------------|
| | 1 mM | 3.6194 mL | 18.0969 mL | 36.1939 mL |
| | 5 mM | 0.7239 mL | 3.6194 mL | 7.2388 mL |
| | 10 mM | 0.3619 mL | 1.8097 mL | 3.6194 mL |

Please refer to the solubility information to select the appropriate solvent.

Biological Activity

| Shortsummary | Apoptosis inducer; potential agent for AML | | |
|---------------------------|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| IC ₅₀ & Target | | | |
| In Vitro | Cell Viability Assay | A CONTRACTOR OF THE CONTRACTOR | |
| | Preparation method: | *************************************** | |
| In Vivo | Animal experiment | | |
| | Applications: | | |

Caution

FOR RESEARCH PURPOSES ONLY.

NOT FOR HUMAN, VETERINARY DIAGNOSTIC OR THERAPEUTIC USE.

Specific storage and handling information for each product is indicated on the product datasheet. Most APExBIO products are stable under the recommended conditions. Products are sometimes shipped at a temperature that differs from the recommended storage temperature. Shortterm storage of many products are stable in the short-term at temperatures that differ from that required for long-term storage. We ensure that the product is shipped under conditions that will maintain the quality of the reagents. Upon receipt of the product, follow the storage recommendations on the product data sheet.
