

TE (Tris-EDTA Buffer, DNase/RNase free)

Product description

TE (Tris-EDTA Buffer, DNase/RNase Free) is a DNase- and RNase-free Tris-EDTA buffer containing 10 mM Tris, 1 mM EDTA, pH 8.0 ± 0.1. It is used for dissolving, diluting, or processing solutions involving DNA or RNA samples. This product is treated with DEPC (Diethyl pyrocarbonate) and autoclaved to ensure it is free of DNase, RNase, and protease.

Composition and storage conditions

Components	Size	100 mL	500 mL	Storage
	TE (Tris-EDTA Buffer, DNase/RNase Free)		100 mL	500 mL
Shipping: Blue Ice		Shelf life: 12 months		

Notes

1. RNase is ubiquitous in the environment. Contamination during handling may impair product performance. Strict precautions must be taken to avoid RNase contamination.
2. Wear a mask when pipetting, minimize exposure to air, and cap the container immediately after use.
3. This product is for research use only.
