

## Gastrointestinal Tissue Dissociation Solution

### Introduction

Gastrointestinal Tissue Dissociation Solution can efficiently dissociate gastrointestinal tissue samples into cell clumps or cell suspensions while maintaining cell viability, which can be used for organoid culture.

### Components and Storage

Components	Size	Storage
Gastrointestinal Tissue Dissociation Solution	100 mL	4°C
Shipping: Blue ice		Shelf life: 1 year

### Protocol

1. The dissociation step varies from tissue to tissue, please refer to the steps in our corresponding organoid culture kit or organoid growth medium protocol.

### Note

1. For your safety and health, please wear lab coats and gloves during the experiment.
2. For research use only. Not to be used in clinical diagnostic or clinical trials.
