

## Anti-Iba1 Rabbit Monoclonal Antibody

### Introduction

Actin-binding protein that enhances membrane ruffling and RAC activation. Enhances the actin-bundling activity of LCP1. Binds calcium. Plays a role in RAC signaling and in phagocytosis.

### Product parameters

|                    |                                                                                                   |
|--------------------|---------------------------------------------------------------------------------------------------|
| Alternative Names  | IBA1; IRT1; AIF-1; IRT-1                                                                          |
| Gene ID            | 199                                                                                               |
| Gene Name          | AIF1                                                                                              |
| SwissProt ID       | P55008                                                                                            |
| Host               | Rabbit                                                                                            |
| Reactivity         | Human                                                                                             |
| Molecular Weight   | Calculated MW: 17 kDa; Observed MW: 17 kDa                                                        |
| Conjugation        | Unconjugated                                                                                      |
| Ex                 | -                                                                                                 |
| Em                 | -                                                                                                 |
| Modification       | Unmodified                                                                                        |
| Clonality          | IgG                                                                                               |
| Isotype            | Monoclonal Antibody                                                                               |
| Clonality No.      | AP-5D7A9                                                                                          |
| Form               | Liquid                                                                                            |
| Concentration      | See label                                                                                         |
| Carrier            | Carrier Free                                                                                      |
| Immunogen          | A synthesized peptide derived from human IBA1                                                     |
| Purification       | Affinity Chromatography                                                                           |
| Buffer System      | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Application        | WB, IHC-P, ICC/IF, FC                                                                             |
| Dilution Ratio     | WB: 1/500-1/1000 IHC: 1/50-1/100 IF: 1/50-1/200 FC: 1/50-1/100                                    |
| Research Field     | Cell Biology                                                                                      |
| Product Categories | Primary antibody                                                                                  |
| Shipping           | Blue ice                                                                                          |
| Storage            | -20°C                                                                                             |

|                 |                                  |
|-----------------|----------------------------------|
| Expiration Date | 12 months                        |
| Note            | Please avoid freeze-thaw cycles. |

## Protocol

Configure the product according to the application range and recommended dilution ratio.

**\*Note:** The primary antibody dilution buffer options: WB - Primary Antibody Dilution Buffer (Cat. #: K1200, Not for HRP/AP conjugated antibodies), Immunostaining - Immunol Staining Primary Antibody Dilution Solution (Cat. #: K4655).

## Note

1. This product is for scientific research use only.
